Browsing the Going Global Career Guides

Clicking on the **Country Guides** link on the Main Page provides the full list of the collection, sorted alphabetically by country. Clicking on a country name opens the Guide for that country.

The **Topic Overview** for each Guide (accessed in the left-hand menu or by scrolling down the page) includes the subjects covered in each section. For example, select “Employment Trends and Opportunities,” and then “Information Technology” to be taken to that topic. Once the page is open, scroll down the page to see all the information in this category.

Searching the Going Global Career Guides

From the **Country Guide** page, you can input a search criterion into the **Guide Search** box. IT IS IMPORTANT TO BE AS SPECIFIC AS POSSIBLE! Select the desired country for the search. The results are listed, including topic and sub topic titles.

Within the Guide itself, it is easy to find the pages containing the specified word or reference by selecting the **Quick Search** box in the right-hand side of the page, and entering the search criteria into the box. Again, results are listed, including topic and sub topic titles.

You can also search by sales or number of employees, using the **Ranges** search function. Select either the number of employees or latest available sales from the **Category** box, then select a country and enter the desired numerical ranges.
